

# Ar Rayan Tech Solutions

AI enabled Digital Transformation

# About Us

- Started by a group of Techpreneurs with vast experience in driving successful digital transformation projects.
- We are a boutique consulting and technology firm specializing in **SAP & ERP solutions, PLM, Salesforce, IoT, and emerging digital technologies.**
- Our expertise lies in designing and implementing enterprise-grade, cloud-based software and mobile digital solutions, tailored to meet evolving business needs and drive operational efficiency.

# Service Offerings

**SAP & ERP  
Solutions**

**PLM  
Windchill**

**IoT**

**Salesforce**

**Oracle  
NetSuite**

## 1. SAP & ERP Solutions

- **SAP S/4HANA & ERP Implementation**

End-to-end implementation, migration, and transformation of SAP S/4HANA aligned to complex enterprise environments and legacy systems.

- **SAP Consulting & Support Services**

Ongoing functional and technical support, ensuring system stability, performance optimization, and continuous enhancement.

- **ERP Integration & SAP BTP Enablement**

Seamless integration of SAP with third-party and legacy systems using SAP BTP to enable real-time data flow and unified operations.

- **Custom SAP Development & Extensions**

Tailored SAP solutions and extensions designed to meet specific business requirements and enhance core ERP capabilities.

- **Cloud & IT Infrastructure Services**

Secure cloud deployment, hosting, and disaster recovery solutions to ensure scalability, resilience, and business continuity.

## 2. PLM (Windchill)

- **Windchill Customization**

Tailor Windchill solutions with advanced custom features to meet unique PLM team's business needs.

- **Windchill Migration**

Handle seamless migration of data and systems from legacy platforms to Windchill with minimal downtime, including WC to WC, Non-WC to WC, and CAD Data Migration.

- **Windchill Admin (Business + System) + Infrastructure**

Provide end-to-end infrastructure and administration support to ensure smooth functioning of Windchill systems and business operations.

- **Windchill Automation Testing**

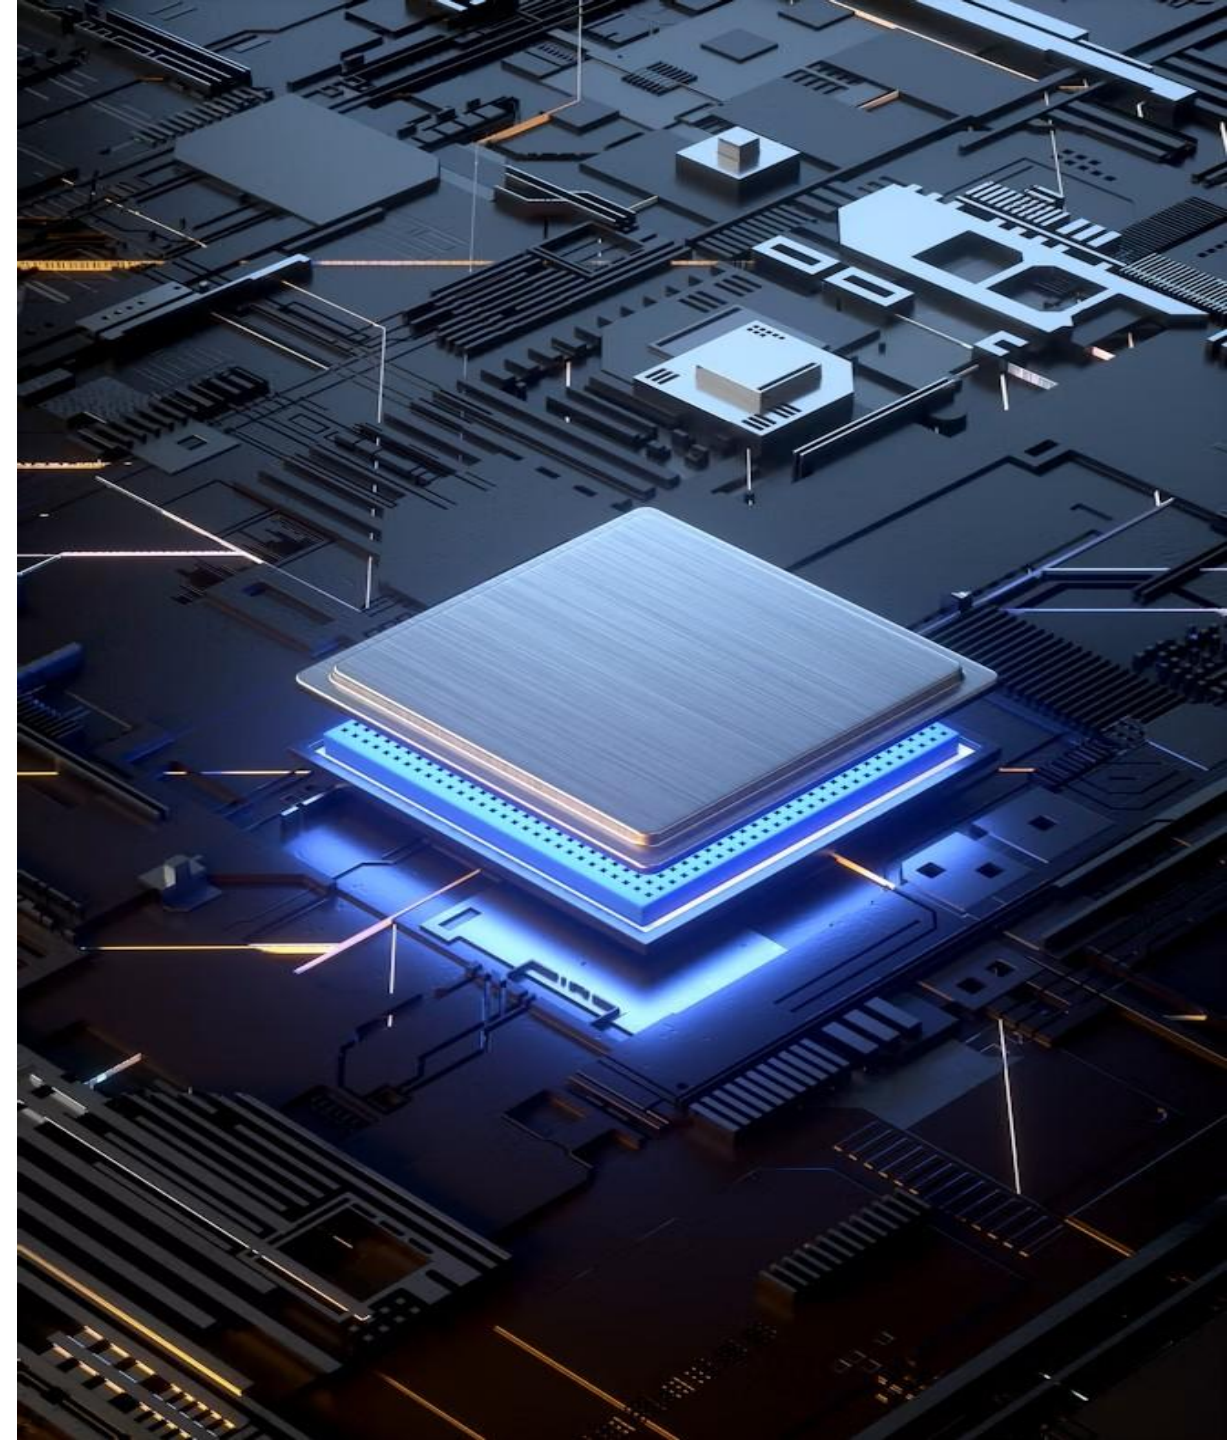

Provide comprehensive Windchill automation testing services to guarantee stability, performance, and reliability of Windchill solutions.

- **WC DevOps**

Enable automated builds, integrations, and deployments for faster and more efficient Windchill adoption.

- **WC Upgrade**

Help customers upgrade to newer versions of Windchill to derive maximum value.

### 3. IoT

- **IoT Roadmap Development**  
Design clear strategies to guide your IoT adoption and digital transformation journey.
- **IoT Application Development**  
Build scalable IoT applications tailored to your business needs and use cases.
- **IoT DevOps**  
Streamline IoT development and deployment with agile DevOps practices for faster results.
- **IoT Integrations**  
Integrate IoT solutions seamlessly with your existing systems for better connectivity and insights.

## 4. Salesforce

- **Salesforce Development**  
Create customized Salesforce applications to enhance productivity and business efficiency.
- **Salesforce DevOps**  
We accelerate Salesforce delivery cycles with CI/CD pipelines and automated workflows.
- **Salesforce Integrations**  
We connect Salesforce with your enterprise tools to ensure smooth data flow and unified operations

## 5. Oracle NetSuite

- **NetSuite Consulting**  
Provide expert consulting to help businesses maximize the value of their NetSuite investment.
- **NetSuite Implementation**  
Deliver seamless NetSuite implementation tailored to your business processes.
- **NetSuite Training and Support (Upgrades)**  
Offer hands-on training and continuous support to ensure smooth adoption and upgrades.
- **Migration from Legacy or other CRM systems**  
Enable hassle-free migration from outdated systems to NetSuite with minimal disruption.

# Specialized Talent Base

## SAP/ERP Consultants (5+)

- SAP S/4HANA Implementation & Migration Experts
- SAP Functional & Technical Consultants (FI, MM, SD, etc.)
- SAP BTP & Integration Specialists

## CAD/E Engineers (5+)

- CAD Engineers
- CAE Engineers

## Windchill Consultants (35+)

- Customization Experts
- DevOps & Administration Specialists
- Upgrade & Migration Experts
- PTC Navigate Consultants
- 75+ Certifications

## IoT Developers (20+)

- Thingworx Experts (15+)
- Azure IoT Specialists (5+)

## Salesforce Developers (50+)

- Sales / Service / Community Cloud
- DevOps & Administration Experts
- 75+ Certifications
